PC25/017 **Planning Applications**

Application Number – 24/39179/HOU

Applicant – Mrs T. Hall

Location – 67 Station Road, Stone

Development – Demolition of existing conservatory and proposed single storey rear extension

Observations: No objections

Application Number – 24/39190/HOU

Applicant – Ms J. Caiazzo

Application Number – 24/39129/HOU

Applicant – Mr D. Smith

Location – 15 Grange Road, Stone

Development – Single storey rear extension to existing dwelling

Observations: No objections

Application Number – 24/39125/FUL

Applicant – George Developments Limited

Location – Field Adjacent A34 Northbound

Development – Creation of an Electric Vehicle Charging Hub comprising 31 charging bays equipped with solar panels and a substation (Sui Generis), picnic areas and a drive through restaurant (Use class E), with associated access, car and cycle parking and landscaping.

Observations: The Town Council strongly opposes this planning application and makes the following observations:

- The proposed development will have a harmful effect on the openness of the Green Belt and the natural environment, including the loss of green space, trees and natural habitats for wildlife.
- The proposal constitutes inappropriate development in the Green Belt with no special circumstances that justify the need for a drive through restaurant to outweigh the harm to the green landscape.
- There is no Environmental Impact Assessment identifying, evaluating and mitigating the environmental impacts of the development.
- There are many alternative and more suitable brownfield sites, and a network of existing service stations that could be expanded to accommodate the installation of an Electric Vehicle Charging Hub.
- The application site is within Flood Zones 2 and 3 with risk of flooding from the River Trent. The rising water levels and removal of foliage – which act as a sponge for the existing water table – raise further questions about the suitability of the location.

- Concerns are expressed about the impact of light on the river ecosystem and rural landscape to the west.
- The development will create a significant increase in traffic volumes on the A34, impacting road safety and generating unwanted noise and pollution control issues.
The Town Council would be interested to know the views of the County Highways Authority but there doesn't appear to be a report available on the planning portal.
- The application is presented as a green project with the installation of electric charging points when its purpose appears to be more in line with opening another fast-food restaurant.
- The Town Council supports the many concerns that have been expressed in response to this planning application by local people.
